

## Certificate of Analysis

**Product** Protein Calibrator Matrix  
**Lot No.** 220CM-01A20  
**Volume** 50 L  
**Fill Volume** 1 L  
**DOM** 2020-01  
**Expiration Date** 2025-01  
**Microbial Colony Count** < 100 cfu/mL  
**Preservatives** BND/MIT

**Filtration** Product has been filtered through an absolute 0.2 micron filter membrane prior to bottling.

**Storage Condition** Negative 20 degree Celsius or colder, (Avoid multi-freeze/thaw)

**Donor Testing** All donors used in this pool were tested and found negative for antibodies to: HIV-1/2, HCV, Syphilis, and HBsAg by FDA approved method.

**CAUTION** This material is not for use in humans or clinical diagnosis. For use in research or in manufacturing of non-injectable products only.
