#### 4.1. Description of first aid measures

Sulphuric Acid

General instructions: Immediately rinse with soap and plenty of water. Use personal protective working aids. If inhaled: Transport the affected person into the open air. If there are respiratory complaints, oxygen must be administered. If irritation persists, seek medical advice. In case of skin contact: Wash contacted area with soap and water. Remove contaminated clothing. If irritation occurs, seek medical advice. In case of contact with eyes: Rinse with a stream of water for at least 15 minutes. Thorough rinsing must be ensured by opening the eyelids. If irritation occurs, seek medical advice. Do NOT induce vomiting. If conscious, rinse the mouth and administer a large amount of water to If ingested: dilute the substance. In the case of unconsciousness, never administer anything orally. If irritation occurs, seek medical advice.
